Pastor stated, “the question of why anything at all exists is the most profound question of philosophy” Stated another way, the question is “Is there a God or there is not a God.” Reflecting on your life, how have you struggled with that question?

A S K

- Read Romans 1:19-20: Pastor Larry in his message stated, “God builds his own evidence into creation and asks us to go mine it.” Why doesn't God reveal Himself more obviously in everyday life?
- Pastor Larry shared that every single person has a faith position and that the only question is what you fill that faith position with. How have you filled your faith position and has it changed as you have grown in your belief in God?
- Everything has a window. Everybody has a window even if you're not a believer. Pastor Larry asked what does your window look out on? What is the content of your faith?
- In a universe void of God, we end up with no objective difference between good and evil. Things that happen are just the way they are. How does the fact that God is real, help you to know the difference between right and wrong?
- Pastor Larry shared that many historians, secular, trust the Bible is legitimate and they say this book is incredible in the way that it presents Jesus. Therefore, the question is do you want to follow the evidence, or do you want to keep denying it? What is your answer and why?
